

HOW TO RAISE STRONG AND HEALTHY DOGS

Very few things in life are more satisfying to a pet parent than raising dogs that are robust and full of energy.

But in today's world, it's getting harder to do so, as many "big companies" are resorting to using cheap products and chemical preservative to produce the dog food you buy at the supermarket.

Introducing **Puptastic Naturals**, the delicious, kitchen-made treats made out of all-natural ingredients for your beloved dogs!

Complete Nutrition in Tiny Treats

Puptastic Naturals dog treats come out of our first kitchen in Grayslake, Illinois. And had done so since 1990. Using natural ingredients from our farm, we create recipes that are tasty but pack all the nutrients your dogs need to grow strong bones and healthy skin.

By feeding your dog Puptastic Naturals, you are eliminating the risk of allergies, as our treats are free of corn, as well as other cheap ingredients some companies use to produce their food. You're also eliminating the risk of harmful diseases caused by chemical preservatives - we use Vitamin E as our source to keep our treats fresh for our dogs to consume.

Puptastic Naturals come in five flavors - **chicken, turkey, beef, liver, and lamb**. And because of its tiny size, you can feed them to your dogs when you take them to training sessions, or while traveling on the road. We know you, and your dogs will be delighted by Puptastic Naturals - and it will become the go-to option for dog treats for years to come. If not, we guarantee to refund your investment in our product entirely - no questions asked.

We invite you today to try us out by ordering our **FREE trial sampler pack (a \$20 value)** to see how your dogs enjoy Puptastic Naturals. Just clip and mail the coupon in this ad, cover the costs of shipping and handling (\$2.00), and we will do the rest!

YES, I want my dogs to grow strong and healthy. Please send me a **FREE trial sampler pack** of Puptastic Naturals right away. I've enclosed the sum \$2.00 for shipping and handling costs.
