Dear Reader:

Now more than ever, active men and women (like you and me) are getting bored and annoyed with the old gym routine. And that's because of all the time and money it takes to get a good workout in.

If you have a family and a career (outside the gym), you might find it hard to set time out to visit a gym and take care of your health.

Let's face it – as fast a pace as the world runs today, you and I don't have time to commute, wait for the gym rats and meatheads to let us use the equipment we need, and drive back home.

And depending on where you live and the size of your gym's crowd, exercising could be an endeavor that can take a couple of hours to complete. If things go smoothly, that is.

You don't have that much to waste. You have a family and business to look after. But that doesn't mean that you should just throw our fitness practice away altogether.

Fitness should always be a priority. Without good health, you can't do what's necessary to take care of what's important. What you need is a fast and cost-effective way to keep your health. And that's what exactly why I want to talk to you.

Today, I want to present you an easy to follow program that can help you become lean, flexible, heart-healthy, and overall super-fit. Without living your home. And in under 30 minutes a day!

Here's What Our Users Have to Say About the BASKETBALL YOGA BLAST Program...

"As Head Coach of Amateur Basketball Clubs of America, I work with many players who have day jobs and busy lives, but also want to pursue their passion for the game of basketball. I do everything possible to help each club member achieve his or her "personal best." People who stay involved in athletics are usually better disciplined, better focused, and healthier, overall. I use my training as a coach and mentor to help them apply their athletic skills to achieving their personal weight and fitness goals. I believe that a daily workout routine is the most helpful is staying slim and agile. After trying Basketball Yoga Blast with my teams, the results have been amazing!"

— Coach Joe Cunningham

"Being a single dad, I need to keep my energy level up to keep up with my 6 and 8-year-old sons. It's not easy, I can tell you. I've found that your program helps me to maintain the fitness and stamina levels I need to manage work, kids, and home. Even though I can't wait to pick up my sons from school, I've already put in a full day's work. I'm an associate at a busy law firm. To keep my take-home work to a manageable amount, if I'm not with a client, I usually work right through lunch. By the time I get home, the boys are ready to have some fun with their dad! And I made a promise to myself that I would never let my work interfere with those few hours between the time we get home and the time they go to bed. For all of us, the best time of the day is when we're all together — and Basketball Yoga Blast makes it fun for all of us to play basketball and stay healthy. After they go to bed, I can put in another 3 hours on my computer. I feel a definite difference when I'm consistent about following your program. My kids love it too. It's all good."

— Tray Young

"I have a demanding career life. I'm not complaining. I love it. Sadly, I've seen many up-and-comers burn out before they made it even halfway up the corporate ladder. Though I seem to thrive on the constant excitement, most people can't take the pace. For those with families, I think it's the long hours that create the most stress. I'm not going to let stress and long hours take its toll on me and my family. Therefore, every evening when I get home, I fire up your program. I enjoy 30 minutes of a fun workout that involves one of my favorite past times — basketball. My husband can't believe I found a yoga-basketball workout! He's even joining me in my Basketball Yoga Blast workouts, so we both have a new appreciation for both pursuits. Even better, doing these workouts together has energized us for ... um... other pursuits. Thanks for creating a basketball fan's fan-tastic workout that helps us perform better on all levels."
