Welcome to the Boomer Investments Club

The Boomer Investments Club (BIC, for short) is a financial services firm you can trust to guide you in protecting and growing your retirement funds.

Founded by Jim Cramer, Davy Ramsey, and Suze Orman in 2015, our team - through the benefits of sharp analytical minds, extensive industry experience, and constant contact with the movers and shakers of the financial world - knows better than anyone the inner happenings of the modern economy, as well as how it affects Baby Boomers as they reach their retirement years.

We have experienced rapid growth because we focus on helping Baby Boomers make smart investments (ideal for their risk threshold) and protect their retirement income.

We'll Tell You What You Must Know Today to Protect and Expand Your Retirement Income - in a Format That Focuses Solely on Boomer Relevance

Once you become a BIC member, you get immediate access to all happenings relevant to our generation and our finances. But that's not all!

You also get easy-to-follow business and financial advice presented by experts who are Boomers, as well as real-world success stories of Boomers (like you and I) who are enjoying a life of fulfillment while being retired!

BIC members also get access 24/7 to these products and services:

- > Our financial newsletters come jam-packed with up-to-the-minute, newsy financial insights that impact our generation and "takeaways" that are tied to the articles - providing simple steps of what to do with the information. Delivered every Sunday morning, our newsletters are short, to the point, and written in plain English - none of that fancy financial jargon.
- > Our live Money Events present national guest speakers - like Mary Buffett, Robert Kiyosaki, and Melissa Leong - to discuss Boomer-specific financial topics. As a BBIC member, you (not only) get a humongous discount to attend these events but also exclusive access to our experts.

> Our Mastermind-style coaching groups can help you protect and grow your money throughout various situations. Whether you're a couple entering retirement... a woman recently divorced or widowed... a senior entrepreneur... a stock enthusiast... or any other way you describe yourself - we'll help you raise your investment by at least \$10,000.00.

As a member of the only wealth club that is just for Boomers, you'll know exactly how to make intelligent investment moves that are ideal for your risk threshold... protect your retirement income for life (could be many more years!) ... slash expenses on housing, travel, shopping, gifts, and utilities... support other family members, if needed, while growing/protecting your assets... and so much more!

And the BBIC has been endorsed by famous business financial experts (such as Warren Buffett and Kevin O'Leary), as well as Boomer celebrities (like Samuel L. Jackson) who are known to live a highly successful life in their 60s and beyond.

But Don't Take My Word for It...

Here's the word from Mr. Jonathan Cunningham, one of our most recent members:

"As a Baby Boomer about to enter retirement, I was afraid I had a basic level of knowledge about modern economy topics like Bitcoin and investment apps. Or, at least, that I didn't know enough about where the economy is headed and how it affects me. And I feared that I was going to make bad financial decisions and lose my money.

When I tried to learn on my own, I was getting overwhelmed by the huge amount of information published - and growing frustrated over how little coverage of how Boomers can thrive in today's market.

I didn't want to spend all day looking for financial information related to my generation. I needed someone to guide me in making wise financial decisions at this stage of my life - and that's what the BIC has done for me. Their newsletters and seminars tell me what I must know to protect my money and expand it. And they do it in a way that focuses only on information that is relevant to my generation.

I already feel great relief about where I stand financially, and how I can play it smart when it comes to funding my retirement years."

And the same thing we have done for Mr. Cunningham is what we are (more than) willing to do for you!
